YHL Technology (Shenzhen) Co., Ltd.

Company Introduction

King Brand Industrial Limited
敬實實業有限公司

YHL Technology (Shenzhen) Co., Ltd. was established in 2015 with a registered capital of 250 million yuan. It is a high-tech enterprise integrating R&D, production and sales. Its main product, the safety tire project, obtained the national invention patent in October 2014, and was successfully listed in Shenzhen Qianhai Equity Exchange Center in December of the same year. The company's independent research and development and production of YHL safety anti-explosion tire series products are not only widely loved by domestic users, but also exported to Thailand, Mexico, Singapore, South Africa, Russia, Egypt, Peru and other countries and regions. Excellent military technology has been widely recognized by the market.

Corporate culture and vision

King Brand Industrial Limited
敬實實業有限公司

Corporate culture: The corporate culture of YHL can be summed up as: unity of belief and values. That is, it is believed that science and technology are the source of power to promote product upgrading and progress; the value of products comes from the saving of social costs.

Our vision is: Make YHL such a highly safe "rest assured" tire that you don't feel it like air at ordinary times! But it is a "love" product that can save lives at the moment of an accident and put safety first!
