前言

PREFACE

日前，由公安部交管局发布统计数据，截至2015年底，全国机动车保有量达2.79亿辆，其中，私家车保有量已达1.24亿辆，每百户家庭拥有31辆，由此，出行安全已关乎到民生问题，涉及到社会稳定及家庭幸福。

According to the statistics released by the Traffic Management Bureau of the Ministry of Public Security, the total number of private cars in China is 279 million by the end of 2015. Among these cars, 124 million are private cars, and each 100 families possess 31 cars. Therefore, traffic security is very crucial to people's livelihood, social stability and the happiness of families.

根据有关资料显示，我国高速公路交通事故中大部分是由于爆胎而引发的，爆胎被认为是造成高速公路交通事故的头号杀手。安全轮胎对提高道路和车辆的安全性、提升交通安全管理的效能、群众的人身安全具有十分重要的意义，市场前景无限。

In accordance with related information, most of the traffic accidents happened on expressways were caused by tyre explosion-the first killer of traffic accident. In this case, safe tyre is the key to ensure safety, and enhance the effectiveness of traffic safety management. It has prosperous market ahead.

而汽车行驶的安全性及舒适性很大程度上取决于汽车轮胎，宇航龙安全轮胎在保证汽车行驶舒适性的基础上，运用高新技术，在轮胎内壁融入纳米高分子记忆橡胶，使轮胎具有耐刺扎、防漏气功能，从根本上提高了汽车轮胎的安全性能。

The safety and comfortability of cars rely on tyres. Yuhanglong tyre adapts a new technology that merged nanometer polymeric memory rubber into the tube, which makes the tyre preventable from air leakage even if it is punctured by sharp tools. Using Yuhanglong tyre can provide you with a comfortable ride while ensuring your safety.

公司简介

COMPANY PROFILE

广东军渠投资发展有限公司是集开发、生产、销售、贸易、服务、投资一体化，多元化，现代化的生产企业，拥有国内一流的先进生产设备，一流的营销精英团队，高素质的管理团队，将规模化、现代化的管理体系运用于公司的各个领域，合作的经销商遍布全国各地。公司按“头年打基础，求突破；两年迈大步，上规模；三年树品牌，大发展”的要求作为规划和部署。

Guangdong JunQu Investment & Management Co., Ltd is a diversified and modern manufacturing enterprise that provides integrated services including development, manufacture, sale, trade, service and investment. The company possesses top-class manufacturing equipments, excellent marketing team and professional management team. It uses the modernize scale management system to manage the whole company, and has cooperated with franchisers around the country. The company always stick to the principle that the first year is for laying foundations, and seeking break through; the second year is for progress and larger scale; and the third year is for building reputation and a big step ahead.

目前公司以自主研发、生产的防爆、防漏、耐扎的安全轮胎为主导项目。争取在三至五年内达到公司在国内外挂牌上市的目标。

For now, the main focus of the company is to independently research, develop and produce a safe tyre that is explosion-proof, air leakage-proof and puncture resistant.

公司坚持在党和政府的领导下，把稳定军心、民心放在第一位，本着“以人为本，人文关怀，讲政治，讲稳定，讲收益，可持续，永发展”的原则，充分发挥军渠企业优势，全面提升复转军人的创业、就业技能，搭建创业平台，优先安置复转军人及家属子女、军嫂、军烈属和未就业的大学毕业生就业。为他们的生存和发展提供一个较好的条件和环境。为军队建设、社会和谐、家庭幸福做出贡献。为国民的安全出行，生命财产的保障做出贡献！

The company is committed to stabilizing the morale of the soldiers and the people as guided by the Party and the government. "Human-oriented, human care, policy, stability, profitability, sustainability and development" are the endless pursuit of the company. It will make full use of the advantage of Junqu enterprise to greatly courage demobilized soldiers or soldiers that transferred to civilian work to start their own business and improve their workability, and to create platforms for them. The company will priority settle down these demobilized soldier, their families, their wives, families of soldiers who sacrifice their lives and also college students, and provide them with better condition to live their lives and develop themselves. The company will always contribute to the development of the soldiers, the harmony of the society, the happiness of the people, and work hard to ensure the safety of the people and to protect their lives and property.

技术原理 TECHNOLOGY

A
当轮胎被钉子等尖锐物扎入时，胎内记忆胶就会在瞬间，全方位将伤口紧紧封住，不让胎内气体漏出。
When the tyre is punctured by sharp tools like nails, the memory rubber inside will seal the hole instantly to prevent air leakage.

当钉子拔出后，记忆胶也会自动复位闭合，严密的堵住漏洞，防止轮胎漏气，从而有效的防止轮胎的突然爆胎。

When the nail is taken out, the memory rubber will automatically seal the hole to prevent air leakage, thus effectively prevent tyre explosion.

产品特点 FUNCTIONS

“防扎、防漏、防爆”安全轮胎在中国已经过了近10年的自主研发和创新。

This safe tyre that can withstand sharp tools, prevent air leakage and prevent tyre explosion has been through 10 years of R&D and innovation.

它的基本原理就是采用国家级专利技术及工艺流程，将一种具有超强记忆功能的石油高分子材料应用于汽车轮胎里层。该材料呈软固状态，不仅具有良好的回复性能和粘附性能，而且还具有防水、无毒、无腐蚀、抗老化等一系列性能特点。由于其高强度的记忆合成功能，当遇到有异物（如钉子、尖锐的碎石）扎进轮胎时，高分子材料将随扎入物体的“进出”而随之一起“运动”并迅速将扎入的异物周围紧密包围，从而形成“胎外有孔胎内有堵”的轮胎自修补现象，确保轮胎遇扎不漏的安全行驶。

The principle is to use the patented technology and manufacturing process to put a petroleum polymer material, with memory, into the inner layer of the tyre. This material is solid-state soft, it is not only has elastic recovery and adhesive, but also water-proof, non-toxic, non-corrosive and aging-resistant. This special material can prevent the tyre from air leakage when it is stuck by sharp tools(nail, stones, etc.) because the memory of the material will help to seal the hole by firmly sticking onto to tool. This self recover function ensure that even if the tyre is punctured, you will be safe.

普通轮胎 common tire		V	S	宇航龙安全轮胎 Yuhanglong Safe Tire	
性能表现 performance	阐述 detail			神奇性能 magical performance	阐述 detail
不防弹 not bullet-proof	普通橡胶易穿透 normal rubber is easily penetrated			防弹 bullet-proof	宇航龙长期服务军用市场，如有需要在轮胎行驶面和侧面均喷涂MIS胶料，可做到防弹。Since Yuhanglong mainly serves for the army, then if it is needed, we can spray MIS material onto the surface of the tyre to make it bullet-proof.
易爆胎 easily exploded	轮胎胎压过低或过高、异物钉扎、鼓包等各种隐患都会导致爆胎。Tyre explosion can be caused by too high or too low of pressure, sharp tools, bulges.			防爆 explosion-proof	宇航龙轮胎放置慢漏气，保持胎压正常，钉扎不爆。The air leakage of the tyre is very slow, which will maintain the stability of the tyre pressure.
不能扎 not puncture resistant	被扎后会漏气，严重的甚至爆胎，从而引发交通事故。Air leakage, or even tyre explosion will be caused by puncturing, and lead to traffic accident.			防扎 puncture resistant	MIS胶料瞬间锁住扎入的外物，外物拔出后胶料会自动记忆复位闭合，完全堵住漏洞无需换胎。MIS material will instantly seal the hole caused by sharp tools, even if after the sharp tools are taken out, the rubber will seal the hole.
慢漏气 slow air leakage	普通轮胎因轮胎胶料密封性不高、轮胎变形、气门芯质量问题，都会导致慢漏气。Low seal-ability, wheel deformation, low quality valve will cause air leakage.			防漏 air leakage-prevented	MIS胶料属于高分子材质，所以其缝隙非常细微，可有效防止轮胎慢漏气。MIS material is polymer material, the seal-ability of it is so sophisticated that can greatly slow down air leakage.
胎噪 noise	普通轮胎与路面摩擦所产生胎噪影响行驶舒适度。Tyre noise is produced by the friction between the tyre and road surface when the vehicle is driving at a high speed, which influence the comfortability.			降噪 reduce the noise	防漏层具有良好的消音作用，能减轻车辆行驶中的震动和噪音，提高了出行驾车的舒适。The leakage-prevented layer can greatly reduce the noise and tremble of the car while driving, which makes the passengers feel more comfortable.
轮胎寿命下降 short tyre life	轮胎补胎次数过多后，轮胎安全性会降低，维修人员因安全因素及经营利润角度考虑建议车主换胎，市面上常见6成新的轮胎就被废弃不用。It is not safe for the tyre to be repaired too many times, so the maintenance worker will suggest you to change the tyre out of safety and operational profit. This is the reason why many half-new tyres are abandoned.			延长寿命 increase the span of usage	杜绝频繁补气和补胎，有效延长轮胎寿命20%-30%。You don't need to repair the tyre or add air frequently, therefore to increase the span of usage for 20 to 30 percent.
油耗高 high fuel consumption	慢漏气会导致轮胎与路面的接触面加大，从而增加油耗。Slow air leakage may increase the fuel consumption by increasing the friction between the tyre and the road.			节能省油 energy and fuel saving	因严防慢漏，可有效避免轮胎漏气所导致的轮胎与路面接触面加大的现象，降低行驶阻力。欧洲西玛克标准认证鉴定显示，宇航龙轮胎可有效降低油耗。The leakage-proof tyre can prevent the friction between the road and the tyre from increasing, thus reducing the driving resistance. It can effectively save fuel according to European standard.
动态不均 dynamic inequality	四个轮胎慢漏气的平均会导致汽车平稳度下降。The air leakage of the four tyres may not be at the same pace, so this will cause dynamic inequality.			动态平衡 dynamic equivalence	宇航龙安全轮胎重量均匀，且严防慢漏使轮胎气压均匀，从而达到动态平衡，让行驶更舒适。All the tyres produced by Yuhanglong are of the same weights, the leakage-proof function will stabilize the tyre pressure and maintain the dynamic equivalence.

宇航龙 安全轮胎

尺寸和规格的认识

The Size And Standard of Yuhanglong Safe Tyre

以205/55R16 91V为例 Take 205/55R16 91V as an example

这个数字代表轮胎扁平比
This number represents aspect ratio.

这个数字代表轮毂直径
This number represents the rim diameter.

这个数字代表轮胎宽度
This number represents the width.

这个数字代表
载重指数及速度级别
the load index and the speed rating.

205 指的是轮胎宽度为205mm ; 205 is the width.

55 指的是轮胎扁平比, 即断面高度是宽度的55%
55 is the aspect ratio, which means the section height to width ratio is 0.55.

R 指的是该轮胎为子午线胎 R is radial tire

16 指的是轮毂直径是16英寸 16 is rim diameter.

91 指的是负荷指数(载重指数) 91, 代表这条轮胎最大可承重615公斤, 四条轮胎就是
615x4=2460公斤
91 is load index, which means a single tyre can hold the maximum weight of 615 kilograms. 4 tires can hold
615*4=2460 kilograms

V 指的是速度级别为240公里/小时 V is speed rating, which is 240km/h

扁平比/扁平率
aspect ratio:

扁平比指的是轮胎断面高度与轮胎断面宽度的比值。
section height to width ratio.

扁平比相同轮胎的统称用“系列”表示(例如: 65系列)
tires with the same aspect ratio are characterized into one series. (65 series)

胎面宽/断面宽
Tread Width:

胎面宽是指轮胎总宽度减去轮胎侧面文字等区域厚度之后的宽度。
Overall Width minus the thickness of the words typed on the side-wall of the tire.

分享点评 Share the critique

陈光祖: 中国汽车工业泰斗级元老, 曾任中国汽车零部件工业公司副总经理, 中国汽车工业咨询发展公司总经理, 中国汽车工业咨询委员会秘书长, 是中国汽车产业发展的见证者和亲历者。

评语: 广东军渠投资发展有限公司运用自主知识产权研发生产的“防弹、防爆、防漏气、耐刺扎”免补安全轮胎是继安全气囊、安全带、ABS防抱死系统之后又一汽车出行安全保障, 是引领轮胎行业革命性改变的产品。

Mr. Chen Guangzu: Senior statesman of China's automobile industry. Former vice manager of CAPAC. Former manager of China Automobile Consulting and Development Company. Former secretary of China Automobile Industry Advisory Committee. He is also the one who witness and experience the development of the automobile industry of China.

Remarks: The “bullet-proof, explosion proof, leakage-prevented, puncture-resistant” safe tyre, researched and developed by Guangdong Junqu Investment & Management Co., Ltd applying its proprietary intellectual property rights, is a world leading, revolutionary product to ensure car safety after air bags, safety belt and ABS system.

龙良贤: 中国企业家日报社社长

评语: 宇航龙安全轮胎为人们出行安全保驾护航, 她承载着爱心, 传递着平安, 必将在“大众创新、万众创业”的经济浪潮中成为标榜力量。中国企业家日报社将通过多种渠道把军渠企业精神、企业文化、企业经验及企业辉煌成就推向多种媒体, 利用自身优势传播正能量。

Mr. Long Liangxian: President of China Entrepreneur Daily

Remarks: Yuhanglong Safe Tyre will surely have a prosperous in this era where people are encouraged to start their own business and make innovations because the aim of it is to ensure people's safety. China Entrepreneur Daily is also trying hard to emphasize the spirit, culture, experience, and achievements of Junqu Investment & Management Co., Ltd to different medias through various of channels. We really hope to bring people energy.

张仲会: 广东省退役士兵服务促进会会长

评语: 广东军渠投资发展有限公司依托军转民高科技产品——宇航龙安全轮胎, 促进和帮扶退役复转军人创业和就业, 广东退役士兵促进会也将宣传榜样力量, 鼓励退役复转军人推广和从事宇航龙安全轮胎事业, 为军民融合国家战略奉献应尽的微薄之力。

Mr. Zhang Zhonghui: President of Retired Soldiers Association of Guangdong Province
Remarks: Junqu Investment & Management Co., Ltd, relying on hi-tech product Yuhanglong Safe Tyre, is encouraging and helping demobilized soldiers and soldiers who transferred to civilian work to start their own business and build their own careers. The company is the model for us, and we will do everything to emphasize the spirit of the company, to encourage these soldiers to promote this safe tyre and contribute to the strategy of civil-military integration of our country.

消费者点评:

生命都没有了, 一切都化为乌有。不怕一万, 就怕万一。宇航龙安全轮胎能极大的保障我们车主出行安全, 是我见到的目前“最牛”的轮胎, 钉子扎穿了不会漏气, 不用补胎, 更不用换胎, 而且是军工技术, 值得信赖。

Remarks from our customer: Everything means nothing if we are not alive. We have to prepare for everything at anytime. Yuhanglong Safe Tyre greatly eliminated my concern and ensure the car safety. It is the best tyre I have ever seen by now. It is puncture resistant, you don't have to repair your tire even if it is stuck by nail, no wonder repairing it. What's more, it is manufactured out of military technology, I am very confident about its quality.
